OPC Comment: Odiham parish council wishes to object to this planning application as the proposed design does not have a door fronting the street, which is one of the characteristics of all the other houses in the High Street, as highlighted by the applicant in the Design and Access Statement, page 6. Please note that at No 3 High Street (the old forge) a door remains to maintain the character, though it is not used as a door. OPC believes that the character of the High Street would be better maintained by the reintroduction of a "front door" which does not have to be used as such, or even usable. OPC asks that this view be put to the Conservation Officer for her views, as well as to the applicant.

We are therefore unclear where this application leaves the long term future of the Barn.

Tree is now shading over 50% of our garden, overshadowing nearby trees, and causing problems with lawn/grass growth in the area. Neighbours have complained that it is also preventing sun light to their gardens and asked us to make this application. We have been advised by an arborist that the tree is too fast-growing as a species to be maintained in a garden of our size, and he has recommended replacement with a small slower-growing variety that can be maintained at a more contained size. We are open to recommendations on an alternative tree to use as a replacement.

18/14 CONSIDERATION OF OPC'S RESPONSE TO THE CONSULTATION ON THE HART SUSTAINABILITY APPRAISAL SCOPING REPORT AND DRAFT STATEMENT OF COMMUNITY INVOLVEMENT

It was agreed to comment on the Statement of Community Involvement - not about the Local Plan but on publicity for planning apps which says (page 17 and 18) that publicity may be by site notice or by letters. It was agreed that if the publicity was by letters only, others who are interested will not know about the application, but if it is by site notice only, this could be vulnerable to poor display. OPC would like to suggest the use of email address where possible, still sending letters initially and using site notices.

It was agreed that Cllr Fellows would categorise the objectives ready for approval at the next meeting.

19/14 UPDATE ON THE HATCHWOOD FARM DEVELOPMENT

The comments from the North East Hampshire Design Review panel had been circulated to all. Although the developer had changed some of the points made by OPC on the plans, OPC remains concerned about the whole process regarding this application. Whilst OPC understands development will happen on this site, it has to be an excellent scheme.

The panel commented that it was "concerned that there are a large number of awkwardly contrived details and that the overall scheme has little or no positive impact on the quality of the village or its character".

Due to the impact of this development and the situation regarding the incorrect minutes of Harts Major Sites Committee meeting, it was agreed to write to Hart DC and request that they carry out the minuted resolution of the Major Sites Committee with respect to the design panel, by seeking a proper answer to the question of acceptability of the scheme and suggested improvements if necessary.

20/14 OPC'S RESPONSE TO LANDSPEED REGARDING AFFORDABLE HOUSING

It was agreed to respond to Landspeed advising them that they need to send their proposal directly to Hart DC to enable them to help all parishes within the Hart district with reference to affordable housing.

21/14 DISCUSSION ON THE PARTIAL REMOVAL OF SLABS FROM THE PAVEMENT IN PALACE GATE

Hampshire Highways would like to remove the paving slabs on the footpath at the top of Palace Gate and replace them with tarmac, due to a number of compensation claims by residents who have tripped on the slabs. Although the council wishes to preserve the character of the High Street, it was agreed to allow the removal of these slabs and the use of tarmac under the stated circumstances. OPC will however request that the removed slabs are kept for future repairs to the High Street.

22/14 DISCUSSION REGARDING THE INSTALLATION OF A PEDESTRIAN WALKWAY TO CROSS KING STREET

It was agreed to request that Hampshire Highways look into a scheme to make the crossing of King Street safer and at how the safety of pedestrians walking down King Street could be improved. This will be particularly important if planning permission is granted for the age related houses in King Street.

23/14 REPORT ON THE MEETING AT HART DC REGARDING THE PRE APPLICATION ADVICE PROCESS

A protocol has been proposed by Hart DC for parish councils regarding consultation. OPC will need to decide what we want to be consulted on. Currently Hart DC aim for many pre apps to have a reply in 10 days (their standard service for correspondence) with a new protocol that might extend. The difficulty is that some developers only want an informal chat, or one with no notes. Sometimes there will be a pre app and it comes to nothing. OPC needs to decide what we want to be consulted on, and what involvement we want to have (every extension, just every new dwelling, or only major ones).

The protocol will also require OPC to respond quickly - possibly outside meeting schedule times, especially if the committee is flagging "no comment", so that Hart can carry on.

Hart is consulting OPC at least partly as an infrastructure enabler (deciding what facilities the parish needs to mitigate any development if it went ahead). OPC is not to negotiate these ourselves, but to inform Hart.

OPC needs to look at our list of projects, update it and send it back to Hart so they can use it in dealings with pre app queries.

OPC also needs to consider if the committee wish to make any statements about how land we know to be in pre app should be developed, or whether we should just comment on what we believe to be important about the site that OPC needs to find a way of retaining if developed.

24/14 UPDATE ON THE PROPOSED NEIGHBOURHOOD PLAN

It was agreed to discuss this further at an informal meeting later this week. There have been a number of volunteers who have already offered to help but more are still needed. There are also a number of questions that have arisen that need considering, including the criteria for appointing consultants and the applications for grant funding.

There being no further business the meeting closed at 9.35pm.
